© 1993 by the American Association of Engineering Societies, Inc. As it is the objective of AAES publications to be a forum for the free expression and interchange of ideas, the opinions, positions, and research stated in published works are those of the original researchers and authors and not by the fact of publication necessarily those of the American Association of Engineering Societies, Inc., or related bodies. Contributing researchers and authors are requested and expected to disclose any financial, economic, or professional interests or affiliations that may have influenced positions taken or advocated in these materials.

ISBN # 0-87615-236-1

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The American Association of Engineering Societies (AAES) is a multidisciplinary organization dedicated to advancing the knowledge, understanding and practice of engineering in the public interest. Its members represent the mainstream of U.S. engineering—over half a million engineers in industry, government, and education.

Through its councils, commissions and committees, and task forces, AAES addresses questions relating to the engineering profession; assesses public policy issues affecting engineering, technological innovation and national goals; issues public policy statements on such issues as sustainable development and technological competitiveness; conducts surveys of engineering personnel; represents the U.S. engineering community internationally in such bodies as the World Federation of Engineering Organizations and the Pan American Federation of Engineering Societies; issues statistical studies of the engineering workforce, present and future; and publishes reference works such as *International Directory of Engineering Societies and Related Organizations*, *Who's Who in Engineering* and the *Thesaurus of Engineering and Scientific Terms*.

AAES also conducts forums for leaders in engineering, industry, government and education for the discussion of issues affecting engineering and the public interest, including an annual government affairs conference and workshops, and the engineering roundtable.

1993 Officers

Ernest L. Daman, Chair, Board of Governors
M. Jack Ohanian, Chair-Elect
James E. Sawyer, Secretary/Treasurer
Carleton A. Bayless, Past Chair
Mitchell H. Bradley, Executive Director

ENGINEERING WORKFORCE COMMISSION

The Engineering Workforce Commission (EWC), formerly the Engineering Manpower Commission, has been a source of objective, timely data relating to the supply and demand for technological personnel since its organization in 1950. As an AAES Commission, EWC is composed of volunteers from professional engineering societies, academia, government, and industry, supported by a professional staff headed by AAES' Director of Research.

EWC conducts annual surveys of industry and schools of engineering, monitors trends in the supply of and demand for engineers, and produces annual reports on engineering enrollments, degrees, and salaries. In addition to its statistical studies, EWC also produces the *Engineering Workforce Bulletin*, which assesses trends in the engineering workforce including participation in the profession by women and ethnic minorities.

1993 Officers

Edward J. Doyle, Chair
Donald C. Brown, Past Chair
Fred O. Schulz, Jr., Vice Chair
Dr. Glen Vanden Berg, Vice Chair
Dr. Theodore Bickart, Chair, Education Committee
Dr. Eleanor Baum, Chair, Degrees Committee

AAES Staff

Director of Research: R. A. Ellis
Director of Publications: Gordon Davis
Education Survey Manager: Claire LeBuffe

The Engineering Workforce Commission wishes to express its grateful appreciation for the cooperation of the hundreds of organizations that provided the data on which this report is based.

TABLE OF CONTENTS

INTRODUCTION	i
SUMMARY DATA FOR ALL GRADUATES	vii
PART I: by School: Data for Schools, Disciplines, and Degree Levels	1
ENGINEERING DEGREES	3
Bachelor Degrees in Engineering by School, State, and Discipline: All Students	5
Bachelor Degrees in Engineering by School, State, Sex, and Population Groups	12
Master's & P.E. Degrees in Engineering by School, State, and Discipline: All Students	19
Master's & P.E. Degrees in Engineering by School, State, Sex, and Population Groups	25
Doctorate Degrees in Engineering by School, State, and Discipline: All Students	31
Doctorate Degrees in Engineering by School, State, Sex, and Population Groups	36
ENGINEERING TECHNOLOGY DEGREES	41
Associate Degrees in Technology by School, State, and Discipline: All Students	43
Associate Degrees in Technology by School, State, Sex, and Population Groups	48
Bachelor Degrees in Technology by School, State, and Discipline: All Students	53
Bachelor Degrees in Technology by School, State, Sex, and Population Groups	57
Master's Degrees in Technology by School, State, and Discipline: All Students	61
Master's Degrees in Technology by School, State, Sex, and Population Groups	62
PART II: by Population Groups: Data for Women, Minorities, and Foreign Nationals	63
WOMEN	65
Bachelor Degrees in Engineering by School and State: Women	67
Master's and P.E. Degrees in Engineering by School and State: Women	74
Doctorate Degrees in Engineering by School and State: Women	80
Associate Degrees in Engineering Technology by School and State: Women	85
Bachelor Degrees in Engineering Technology by School and State: Women	90
Master's Degrees in Engineering Technology by School and State: Women	94
AFRICAN AMERICANS	95
Bachelor Degrees in Engineering by School and State: African Americans	97
Master's and P.E. Degrees in Engineering by School and State: African Americans	104
Doctorate Degrees in Engineering by School and State: African Americans	110
Associate Degrees in Engineering Technology by School and State: African Americans	115
Bachelor Degrees in Engineering Technology by School and State: African Americans	120
Master's Degrees in Engineering Technology by School and State: African Americans	124
HISPANIC AMERICANS	125
Bachelor Degrees in Engineering by School and State: Hispanic Americans	127
Master's and P.E. Degrees in Engineering by School and State: Hispanic Americans	134
Doctorate Degrees in Engineering by School and State: Hispanic Americans	140
Associate Degrees in Engineering Technology by School and State: Hispanic Americans	145
Bachelor Degrees in Engineering Technology by School and State: Hispanic Americans	150
Master's Degrees in Engineering Technology by School and State: Hispanic Americans	154
NATIVE AMERICANS	155
Bachelor Degrees in Engineering by School and State: Native Americans	157
Master's and P.E. Degrees in Engineering by School and State: Native Americans	164
Doctorate Degrees in Engineering by School and State: Native Americans	170
Associate Degrees in Engineering Technology by School and State: Native Americans	175
Bachelor Degrees in Engineering Technology by School and State: Native Americans	180
Master's Degrees in Engineering Technology by School and State: Native Americans	184
ASIAN AMERICANS	185
Bachelor Degrees in Engineering by School and State: Asian Americans	187
Master's and P.E. Degrees in Engineering by School and State: Asian Americans	194
Doctorate Degrees in Engineering by School and State: Asian Americans	200
Associate Degrees in Engineering Technology by School and State: Asian Americans	205
Bachelor Degrees in Engineering Technology by School and State: Asian Americans	210
Master's Degrees in Engineering Technology by School and State: Asian Americans	214
FOREIGN NATIONALS	215
Bachelor Degrees in Engineering by School and State: Foreign Nationals	217
Master's and P.E. Degrees in Engineering by School and State: Foreign Nationals	224
Doctorate Degrees in Engineering by School and State: Foreign Nationals	230
Associate Degrees in Engineering Technology by School and State: Foreign Nationals	235
Bachelor Degrees in Engineering Technology by School and State: Foreign Nationals	240
Master's Degrees in Engineering Technology by School and State: Foreign Nationals	244
PART III: by Curricula: Data for Specific Programs of Study	245
ENGINEERING CURRICULA BY SCHOOL	247
Engineering Curricula by State and School, 1992-1993	249
ENGINEERING TECHNOLOGY CURRICULA BY SCHOOL	289
Engineering Technology Curricula by State and School, 1992-1993	291
ENGINEERING AND ENGINEERING TECHNOLOGY CURRICULA BY DEGREE GROUPS	313
Engineering and Engineering Technology Curricula by Degree Groups, 1992-1993	315
APPENDIX: Illustrative Data Collection Form	335

INTRODUCTION

For twenty-six years, the Engineering Workforce Commission (EWC) has conducted annual surveys of enrollments and degrees in engineering programs. This report provides statistics on degrees awarded in the United States in engineering and engineering technology during the 1992-1993 academic year. Degree production is stated for particular disciplines (such as civil engineering, electrical engineering technology, etc.), and for differing academic levels (B.S., M.S., etc.). Detailed information is provided for specific institutions; subtotals for each state are included. The report also identifies the numbers of awards to women, members of minority groups, and foreign students, as well as gender breakdowns for population groups at the institution level (e.g., Hispanic women or foreign national men).

In engineering, the study covers 337 institutions, including all of those with curricula approved by the Accreditation Board for Engineering and Technology (ABET). Some of these schools have newly initiated engineering programs, and have not been included in previous degree reports from EWC. This report provides a comprehensive enumeration of engineering programs available in the United States today.

In engineering technology, the 1993 degree survey includes data from 299 schools. All schools with any ABET-approved technology curricula are covered, as well as a number of others. No coverage is provided of awards at the certificate level or of pre-engineering degrees.

This report includes a *Summary Data* section that aggregates the overall numbers of degrees, by discipline, awarded to women, members of four minority groups (African Americans, Hispanic Americans, Native Americans, and Asian Americans), and foreign nationals. This summary section also includes such data as time series tables.

The main body of the report is organized into three parts:

Part I—By School presents summaries of degree awards, grouped by type. For each degree level, data are organized by institution, in alphabetical order by state, with details for each major engineering discipline along with subtotals for each state and for the nation. Descriptive data for the schools include codes for institutional types (public, private, etc.) and accreditation statuses, as well as special response codes that flag any unusual characteristics of the data for the school. Separate tabulations are included for bachelor, master's and professional engineering (P.E.), and doctorate degrees, and for associate, bachelor, and master's degrees in engineering technology. Details on the sex of minority and foreign national graduates are provided by state and institution following these curricula tabulations. Some schools were unable to provide gender breakdown data for minorities and/or foreign nationals; these schools are flagged accordingly.

Part II—By Population Groups provides the same detailed, school-specific discipline data that is presented in Part I for each of the six population groups listed above: women, the four minority categories, and foreign nationals. For example, this section allows a reader to identify specific

schools in any particular geographic region that have awarded significant numbers of degrees in some particular field of engineering to women, Hispanic Americans, foreign nationals, etc.

Part III—By Curricula provides different tabulations of the degree data. Each major discipline is listed with a line of data for each specific program offered. Often schools have more than one program in a single broad engineering or engineering technology discipline; when this is the case, institutions have multiple listings in the Part III tables. Distinctions such as separate accredited and unaccredited offerings, or between programs leading to differing degrees (such as the difference between master of science and master of engineering diplomas) are preserved, and the specific titles attached to each degree are displayed. The latter step permits examination of the data to find graduates with specialized engineering skills not otherwise identified in the more general tabulations of over 20 broad curriculum categories. For example, within the general group of civil engineering graduates it is possible to locate specific programs in surveying engineering. For each program, both school-level descriptive codes and program-level ABET accreditation statuses are displayed. Numbers of degrees are listed separately for each major level (B.S., M.S., etc.), and overall totals are displayed along with aggregate totals for awards to women, minorities and foreign nationals. A final tabulation summarizes national degree production for every program title used in the survey.

EWC's degree data are available in the form of machine-readable files on IBM-standard floppy disks, especially configured for use with Lotus Development Corporation's popular 1-2-3 spreadsheet software. All details provided in Parts I and II of our printed reports are captured in these files; however, the machine-readable data do not include the program-by-program information provided in Part III. The 1-2-3 source files have been adjusted so that all engineering (or all technology) schools are listed in every data file, so that (for example) data for M.S. and Ph.D. degrees can be added to a spreadsheet for B.S. degrees, providing listings for all degrees in engineering, regardless of level, in the nation. No provision is made to combine engineering and engineering technology data in this fashion, however. These data files are a powerful and convenient way to use personal computers to manipulate the 1993 degree survey results, generating new tabulations that are not presented by EWC in its printed reports. A similar product is available for EWC's survey of engineering and technology enrollments.

Any questions regarding the course content or other details of specific engineering or engineering technology programs should be directed to the participating schools. Other inquiries about EWC's educational surveys are welcome. Contact R. A. Ellis, Director of Research, American Association of Engineering Societies (see the inside back cover for address information). For ordering information and prices for either printed reports or machine-readable data disks, also see the inside back cover.

Our annual surveys of degrees and enrollment utilize a data entry system which enhances control over every point of production. This system automatically performs checks on the validity of data as it is entered. The software ensures against both duplicate and missing program entries. Individual lines of program data are examined to ensure that details for women, and for minorities and foreign nationals, do not exceed degree totals. Problems that are due to errors in data entry are easily rectified; other anomalies require contact with each school to determine correct data. While entered data is awaiting corrections, it is flagged and stored in a separate provisional database, to be retrieved once corrected data is received.

As it is entered, each line of data is compared against similar information submitted to EWC the previous year. Thus, we can automatically track large fluctuations in the degree statistics for the individual programs for which we have previous data. If the updated school information, accreditation, or curricula group assignments are not recognized by the system, the system calls for appropriate actions by the survey staff. Response codes, used for schools that submit incomplete data, have been automated as well, to provide more specific descriptions of missing coverage. The system recognizes whether the selected response code is valid for the program to which it is assigned.

The tasks of tracking school responses, address and contact information updates, phone calls, and data entry are automated, allowing for tight control over all levels of interaction with the schools.

The data system allows EWC to produce the most thoroughly checked educational surveys in its history. Checks that formerly were done by hand, or after data entry toward the end of the survey, are now automated and ongoing.

Overwhelmingly, the largest burden of degree survey production is the need to contact the schools for data corrections, missing data, and lack of response. After exhausting all possible means of getting complete and correct information from the schools, EWC resorts to implementing response codes, reasonable estimates, and substituting previous data.

As in earlier degree surveys, responses from previous years were used when schools were unable to provide current data. No attempt was made to substitute data on technology programs that were not accredited by ABET. EWC had traditionally limited substitutions to the previous year only; in 1987 this rule was modified to permit older substitutions of data where available, rather than lose a school altogether or rely on less valid forms of estimation. In 1993, 98 percent of the engineering schools contacted by EWC for degree data were able to meet our very demanding deadline, and no substitutions of data more than two years old were needed in order to add information on most of the remaining institutions. Our deep appreciation is extended to the university staff who make this kind of thorough, up-to-date coverage possible. A complete accounting of the substituted cases follows.

NEW SCHOOLS AND NAME CHANGES IN 1993

Two new institutions are listed in EWC degree tables for the first time: the University of Southern Maine and New Mexico Highlands University.

Several changes in programs were reported this year. Spring Garden College in Pennsylvania closed. The University of Texas of the Permian Basin graduated its last class this year. Also, in June Washington University's School of Technology and Information Management (STIM) was incorporated into Washington University and, thus graduated its last class this year. Northrop-Rice Aviation (formerly Northrop University) no longer has an engineering program, only engineering technology. City College of the City University of New York (CUNY) no longer has engineering technology students; their students are now served by the New York City Technical College/CUNY.

There was a restructuring of the technical college system in Connecticut. All of the technical institutions were merged with local community colleges and new schools were formed. Degree data is not obtainable so data from the previous institutions were substituted. The name changes for the Connecticut colleges are: Greater New Haven State Technical College became Gateway Community Technical College; Hartford State Technical College became Capital Community Technical College; Norwalk State Technical College became Norwalk Community Technical College; Thames Valley State Technical College became Three Rivers Community Technical College; Waterbury State Technical College became Naugatuck Valley Community Technical College.

A few other name changes were reported. Sumter Area Technical College (North Carolina) became Central Carolina Technical College and the SUNY Agricultural and Technical College at Farmingdale became the SUNY College of Technology at Farmingdale.

MISSING AND SUBSTITUTED DATA

In a few cases, 1993 degree reports were not received by EWC. However, 1992 or 1991 reports were available and were substituted for the missing data. When these schools appear in tabulations, they are flagged with a special response code "2" or "1." In the case of New York City Technical College/CUNY no substitution was made, since no data was obtainable and the program has undergone several changes; see discussion above. The substituted schools are:

Engineering Schools: substituted responses for six institutions accounting for 1606 B.S. degrees, 788 M.S. degrees, and 32 Ph.D. awards in the 1993 tabulations:

California State University, Chico
California State University, Sacramento
Mercer University (Georgia)
Oakland University (Michigan) (1991)
The Citadel, the Military College of South Carolina
George Mason University (Virginia)

Engineering Technology Schools: substituted responses for fourteen schools accounted for 1668 associate degrees and 216 BSET degrees in the 1993 tabulations. In addition, as noted above, no data are available for New York City Technical College/CUNY. Only technology schools with ABET-approved curricula were substituted:

California State University, Sacramento
City College of San Francisco (California) (1991)
Colorado Technical College, Colorado Springs Campus
Capital Community Technical College (Connecticut) (1991)
Naugatuck Valley Community Technical College (Connecticut) (1991)
Norwalk Community Technical College (Connecticut) (1991)
Three Rivers Community Technical College (Connecticut) (1991)
Augusta Technical Institute (Georgia)
DeKalb Technical Institute (Georgia)
Savannah Vocational-Technical School (Georgia)
Bronx Community College/CUNY (New York)
Queensborough Community College/CUNY (New York)
Roger Williams University (Rhode Island)
Nashville State Technical Institute (Tennessee)
Prairie View A&M University (Texas)

MISSING DETAILS

Several schools were unable to provide data for one or more of the several special population groups—women, minorities, and foreign nationals—tracked by EWC. No estimates were made for these omissions. Appropriate response codes flag all of these cases in the tabulations.

Missing details frequently apply to only some of the programs reported by a school. In such cases, response codes appear in the tables only when they are applicable. In general, if degree production for a particular type of student is zero and no response code is attached to the line, EWC has judged the zero result to be an accurate one. On the other hand, if no degree production is reported for a group but an applicable response code appears with the listing, the reader should assume that such degrees may have been awarded but that EWC has no way to estimate the number of these degrees. A number of schools could not provide breakdowns by gender for ethnic and foreign national groups.

Engineering Schools:

University of Alabama (graduate only): details on minorities missing and foreign national gender breakdowns missing.
University of Alaska, Anchorage: minority gender breakdowns missing.
California State Polytechnic University at Pomona: details on foreign nationals missing and minority gender breakdowns missing.
California State University at Fresno (bachelor's): details on foreign nationals missing; (master's): details on foreign national gender breakdowns missing.

California State University at Sacramento (bachelor's): details on Asian Americans and foreign nationals missing and minority gender breakdowns missing; (master's): details on foreign nationals missing and minority gender breakdowns missing.

San Francisco State University (California): minority and foreign national gender breakdowns missing.

United States Naval Postgraduate School (California) (doctorate's only): details on minorities missing.

West Coast University (California): details on minorities missing.

Hartford Graduate Center (Connecticut): details on minorities and foreign nationals missing.

FAMU/FSU (Florida): details on foreign nationals missing.

University of South Florida: details on foreign nationals missing.

University of Iowa: minority and foreign national gender breakdowns missing.

University of Southern Maine: minority and foreign national gender breakdowns missing.

Boston University (Massachusetts): overall details prorated to program-by-program estimates.

Ferris State University (Michigan): minority and foreign national gender breakdowns missing.

New York Institute of Technology: details on foreign nationals missing and minority gender breakdowns missing.

Ohio Northern University: minority and foreign national gender breakdowns missing.

Youngstown State University (Ohio) (graduate only): foreign national gender breakdowns missing.

Oregon State University (undergraduate only): details on minorities and foreign nationals missing; (graduate only): all details missing.

Widener University (Pennsylvania): minority and foreign national gender breakdowns missing.

University of Tennessee, Chattanooga: details on foreign nationals missing.

Engineering Technology Schools:

Glendale Community College (Arizona): details on foreign nationals missing.

California State Polytechnic Institute at Pomona: details on foreign nationals missing and minority gender breakdowns missing.

California State University at Sacramento: details on Asian Americans foreign nationals missing and minority gender breakdowns missing.

West Coast University (California): details on minorities missing.

University of Southern Colorado: minority and foreign national gender breakdowns missing.

University of South Florida: details on foreign nationals missing.

Idaho State University: details on foreign nationals missing and minority gender breakdowns missing.

Parkland College (Illinois): details on minorities and foreign nationals missing.

Ferris State University (Michigan): minority and foreign national gender breakdowns missing.

St. Louis Community College, Forest Park (Missouri): minority and foreign national gender breakdowns missing.

New Hampshire Technical Institute: details on minorities and foreign nationals missing.

Ocean County College (New Jersey): details on minorities and foreign nationals missing.

New York Institute of Technology: details on foreign nationals missing and minority gender breakdowns missing.

State University of New York, College at Buffalo: overall details prorated to program-by-program estimates.

Technical Career Institute (New York): minority and foreign national gender breakdowns missing.

Asheville-Buncombe Technical College (North Carolina): minority and foreign national gender breakdowns missing.

Guilford Technical Community College (North Carolina): details on Asian Americans, Hispanic Americans, Native Americans and foreign nationals missing and minority and foreign national gender breakdowns missing.

Hocking Technical College (Ohio): details on minorities and foreign nationals missing.

Kent State University, Tuscarawas (Ohio): details on minorities and foreign nationals missing.

Florence-Darlington Technical College (South Carolina): minority and foreign national gender breakdowns missing.

Greenville Technical College (South Carolina): minority and foreign national gender breakdowns missing.

Tri-County Technical College (South Carolina): details on minorities and foreign nationals missing.

Eastern Washington University (Washington): details on minorities missing.

West Virginia State College (West Virginia): details on minorities and foreign nationals missing.

EXPLANATION OF SYMBOLS AND ABBREVIATIONS

The "T-A-R" Codes:

EWC adopted a three-part alphabetical coding system in 1986 to denote school types, institutional accreditation, and any special facts relating to the school's data. These codes as follows:

"T": Type of School:

"S" means state or other public control, including municipally-sponsored schools, but excluding federally-sponsored service academies.

"F" denotes the federal institutions.

"N" means non-sectarian, non-profit private institutions.

"R" denotes religiously affiliated institutions.

"P" denotes proprietary schools.

"C" denotes combined public and private sponsorship, e.g. Cornell University.

"A": Accreditation:

"E" means at least one engineering program is accredited by ABET.

"T" means at least one technology program is accredited by ABET.

"B" means that the school has ABET-accredited courses in both engineering and technology.

"R" means that the school does not have ABET-accredited courses, but is approved at the institutional level by a recognized regional accreditation agency such as the Southern Association of Colleges and Schools.

"X" means that none of the preceding codes apply (in general, such schools are candidates for regional accreditation).

An "N" code for accreditation by NATTS, the National Association of Trade and Technical Schools, is allowed but has not been used for many years.

"R": Response: These codes appear only when applicable. Note that when necessary the tables of gender breakdowns for population groups utilize a two-part response code in order to most accurately describe the missing data.

"1" denotes substituted data from the 1991 degree survey.

"2" denotes substituted data from the 1992 degree survey.

"A" means all details on population subgroups were missing.

"C" means details were missing for foreign nationals.

"D" means details were missing for minority groups and foreign nationals.

"E" means details were missing for minorities.

"F" means details were missing for Asian Americans, and foreign nationals.

"H" means details were missing for Asian Americans, Hispanic Americans, Native Americans and foreign nationals.

"P" means data were prorated in some fashion by EWC's staff, in order to generate a complete response.

"X" means population group totals by gender were missing. This code is used alone or modified by other response codes, and appears only on tables in Part I where details on gender breakdowns for population groups are provided by degree level for each school.

Note that the response codes are program-specific: they may appear in one listing for a school but not in another, if one program involved substitutions, missing details, or pro-rating while the other did not.

Examples: TAR code of "SB": this is a publicly supported school with ABET-approved programs in both engineering and engineering technology. TAR code of "RR1": this is a religiously-affiliated school, regionally accredited, treated with substituted data from a 1991 response. TAR code of "NEAX": this is private, non-sectarian school with ABET-accredited engineering programs and with no gender breakdowns for any group.

Program-Level Accreditation Codes: these are used only in the Part III volume on curriculum details:

"A" denotes ABET accreditation at the associate degree level.

"B" denotes ABET accreditation for the program at the bachelor's level.

"M" denotes ABET accreditation at the master's level (used only rarely for programs leading to a master's as a first professional degree; in general, ABET does not accredit graduate programs).

"N" denotes programs with no ABET accreditation. In general, where program titles match across degree levels, higher-level offerings will be flagged with the corresponding lower-level code if such an ABET accreditation exists. However, in many situations this rule cannot be unambiguously applied. For example, EWC will tag a graduate program in mechanical engineering with a "B" ABET accreditation code if the corresponding undergraduate course is present, but will not apply the code to a graduate program in engineering mechanics. Similar cross-references may be made for technology programs.

Discipline Category Abbreviations: note that some abbreviations apply only to engineering or only to technology, depending on EWC's established conventions for the division of these broad fields into specialties.

ACN = Air Conditioning/Heating/Refrigeration (technology only)
AER = Aerospace and related
AGR = Agricultural (engineering only)

ARC = Architectural
AUT = Automotive (technology only)
BIO = Bioengineering (engineering only)
CER = Ceramics (engineering only)
CHE = Chemical
CVL = Civil/Construction (engineering); Civil only (technology)
CON = Construction (technology only)
CMP = Computer
DRF = Drafting/Design (technology only)
ELC = Electrical/Electronic (engineering); Electrical only (technology)
ELM = Electromechanical (technology only)
ELX = Electronic (technology only)
ENS = Engineering Science
ENV = Environmental (engineering only)
GNL = General Engineering
IMM = Industrial/Manufacturing/Engineering Mgmt.
IEM = Engineering Management (engineering only)
IMF = Manufacturing
IND = All Other Industrial
MAR = Marine
MTL = Materials/Metallurgical (engineering); Materials only (technology)
MEC = Mechanical
MGN = Mining/Mineral/Geological (engineering); Mining/Metallurgical/Welding (technology)
NUC = Nuclear
PET = Petroleum/Natural Gas (engineering only)
SYS = Systems (engineering only)
OTH = Others (including Agricultural, Biomedical, Environmental and Petroleum Technology)

SUMMARY DATA

CONTENTS OF THE SUMMARY DATA SECTION

Eleven summary tables are provided. Following explanatory comments on each of them, we provide a brief assessment of the degree production picture as it appears as this is written, in the final quarter of 1993.

Table 1: All Degrees in Engineering, 1992-1993, by Level of Degree, Type of Student, and Discipline. The data provide a concise summation of B.S., M.S., and Ph.D. awards during the 1992-1993 academic year for 23 engineering disciplines, including the number of degrees given to women, minorities, and foreign nationals. These breakdowns include details for awards in engineering management and manufacturing engineering as well as other kinds of degrees traditionally classified by EWC under the broad heading of "industrial engineering." Those details are not included in the school-by-school tables provided in Parts I and II of this report (however, they are available on a school-by-school basis in the somewhat more flexible format provided by EWC's machine-readable data files).

Table 2: Men and Women Engineering Graduates in Major Population Categories. The table provides gender breakdowns for B.S., M.S., and Ph.D. engineering degree awards among each of the ethnic and nationality populations tracked by the Commission. The table also provides a complete accounting for awards where the gender of the recipients was unknown (because a few schools were unable to provide these details).

Tables 3, 4, and 5: Bachelor's, Master's and P.E., and Doctoral Degrees in Engineering, by Discipline, 1983-1993. The tables contain complete data for engineering degree production in each of the major specialties during the last ten years. No attempt has been made to disaggregate prior-year data on industrial engineering awards into the three more detailed categories now used by EWC.

Table 6: Degrees in Engineering by Level and Type of Student, 1983-1993. This version provides added details for each ethnic population.

Tables 7-11: these tabulations provide statistics for engineering technology degrees that are comparable to the data on engineering awards described for Tables 1-6 above. The tabulations for time series begin with 1987, because stable longitudinal statistics from EWC's surveys of engineering technology degrees have only been available from this point onwards. (In 1986, the Commission moved to achieve 100

percent coverage of all ABET-accredited technology schools, and certain critical improvements were adopted in 1987 in our handling of disciplinary assignments.) Only five technology tables are needed, compared to the six tabulations used for engineering, because only a small number of technology degrees are awarded at the highest (M.S.) level, eliminating the need for disciplinary breakdowns for this group (most of the M.S. degrees in engineering technology are classed by schools as either "general," "industrial," or "other technology" awards).

CURRENT TRENDS

As in the past, extended commentary on directions in the generation of engineering degrees will be provided in EWC's *Engineering Workforce Bulletin* issue number 128 (November 1993), "Engineering Degree Statistics and Trends, 1993." However, the broad picture can be summarized as follows:

The 1993 degree survey counted a total of 65,001 B.S. degrees in engineering, a two percent increase from the 63,653 degrees counted in 1992. This is the first increase in the number of engineering bachelor's degrees since production reached its all-time peak of 78,178 awards in 1986, and is probably linked to a temporary improvement in first-year enrollments observed in 1988; those students are now graduating.

Most established trends in other types of engineering degree production continued in 1993, though there were some noteworthy changes. Graduate awards increased again, to 31,104 Master's degrees and 6,198 Doctorate degrees. The women's share of undergraduate degrees grew to 16.1 percent, and their share increased to 15.7 percent of the master's degrees; however, their share of doctorate awards shrank for the first time to 9.7 percent. At most levels, awards to minorities increased, both proportionately and in terms of their absolute numbers; exceptions were the smaller share of engineering graduate degrees awarded to Asian Americans, and the lower number of engineering doctoral degrees awarded to Native Americans. The foreign national share of engineering M.S.'s and Ph.D.'s continued to rise, to 32.5 percent and 53.3 percent, respectively.

In engineering technology, the small declines in degree production that have been observed during the last few years also continued, with overall production at 11,777 associate's awards and 9,752 bachelor's degrees.

Table 1

ALL DEGREES IN ENGINEERING, 1992-1993, BY TYPES OF STUDENTS AND DISCIPLINE*

* Note: Student population categories are neither exhaustive nor mutually exclusive, and will not sum to totals. In particular, women may be included in ethnic or foreign national categories; see separate tables for gender and population groups for details on this overlap. Foreign nationals are NOT counted in ethnic groups, which are limited to U.S. citizens and permanent residents. Awards in the columns labeled "IEM" (Industrial: Engineering Management), "IMF" (Industrial: Manufacturing Engineering), "IND" (Industrial: All Others) will equal the degrees grouped in the single "IMM" (Industrial: Management and Manufacturing) category elsewhere in this report.

Table 2

MEN AND WOMEN ENGINEERING GRADUATES IN MAJOR POPULATION CATEGORIES, 1992-1993*

	ALL GRADUATES:	AFRICAN AMERICANS:	HISPANIC AMERICANS:	NATIVE AMERICANS:	ASIAN AMERICANS:	FOREIGN NATIONALS:
All Bachelor's Degrees:	65001	2637	2845	175	6764	4604
Men	54548	1770	2201	141	5150	4080
Women	10453	811	556	30	1282	478
Gender Unknown	-	56	88	4	332	46
All MS/PE Degrees:	31104	638	629	57	2512	10122
Men	26083	472	512	44	1946	8742
Women	4876	165	115	13	533	1276
Gender Unknown	145	1	2	-	33	104
All Doctoral Degrees:	6198	46	55	2	383	3306
Men	5581	35	45	1	341	3046
Women	600	9	10	1	42	228
Gender Unknown	17	2	-	-	-	32

* Note: Often schools can determine the overall gender distribution of their graduates but may not be able to do so for one or more of the specific population subgroups. For this reason, the total number of "gender unknown" cases for ethnic and foreign national categories exceeds the number for the "all graduates" data. Only U.S. citizens and permanent residents are counted in the ethnic enumerations.

Native Americans	86	2	1	5	3	-	6	1	5	4	17	1	20	-	3	2	4	1	-	8	1	-	2
Asian Americans	850	40	4	23	10	7	23	48	8	29	138	8	290	1	80	16	31	4	1	74	1	-	14
Foreign Nationals	514	11	1	31	7	4	12	44	13	10	50	6	157	1	41	14	39	1	-	62	-	1	9

* Note: Student population categories are neither exhaustive nor mutually exclusive, and will not sum to totals. In particular, women may be included in ethnic or foreign national categories; see separate tables for gender and population groups for details on this overlap. Foreign nationals are NOT counted in ethnic groups, which are limited to U.S. citizens and permanent residents. Awards in the columns labeled "TEM" (Industrial: Engineering Management), "IMF" (Industrial: Manufacturing Management), "IND" (Industrial: All Others) will equal the degrees grouped in the single "TMM" (Industrial, Management and Manufacturing) category elsewhere in this report.

Table 8

MEN AND WOMEN ENGINEERING TECHNOLOGY GRADUATES IN MAJOR POPULATION CATEGORIES, 1992-1993*

	ALL GRADUATES:	AFRICAN AMERICANS:	HISPANIC AMERICANS:	NATIVE AMERICANS:	ASIAN AMERICANS:	FOREIGN NATIONALS:
All Associate's Degrees:	11777	639	357	50	360	160
Men	10473	491	304	40	304	132
Women	1304	95	42	5	41	21
Gender Unknown	-	53	11	5	15	7
All Bachelor's Degrees:	9752	615	300	36	483	318
Men	8969	496	233	31	396	260
Women	783	101	34	4	40	56
Gender Unknown	-	18	33	1	47	2
All Master's Degrees:	83	3	3	-	7	36
Men	71	3	3	-	4	33
Women	12	-	-	-	3	3
Gender Unknown	-	-	-	-	-	-

* Note: Often schools can determine the overall gender distribution of their graduates but may not be able to do so for one or more of the specific population subgroups. For this reason, the total number of "gender unknown" cases for the ethnic and foreign national categories exceeds the number for the "all graduates" data. Only U.S. citizens and permanent residents are counted in the ethnic enumerations.

APPENDIX
Illustrative Data Collection Form

DEADLINE:
August 16, 1993

Engineering Workforce Commission

DEADLINE:
August 16, 1993

**SURVEY OF DEGREES IN ENGINEERING AND ENGINEERING TECHNOLOGY
AWARDED DURING THE 1992-93 ACADEMIC YEAR**

American Association of Engineering Societies 1111 19th Street, N.W. Washington, D.C. 20036 (202) 296-2237

INSTRUCTIONS

PLEASE READ BEFORE COMPLETING FORM

This is EWC's survey of all engineering and engineering technology degrees granted during the 1992-93 academic year. All engineering programs at your school should be reported, including any programs outside the school of engineering. The dean of engineering or equivalent should review all the data, resolving any questions as to the inclusion of particular programs and making estimates, if necessary, to fill in all incomplete items of information.

- 1 Check the mailing label and school information at the bottom of the form. Make changes as necessary. Be sure to check Dean and contact person information. Indicate whether changes should be applied to EWC's survey of enrollment.
- 2 Check that correct forms for your school have been provided. (Separate forms are provided for engineering and for technology programs, and for each level of degree—associate, B.S., master's and professional engineering, etc.—within these categories.) Do NOT report degrees on inappropriate forms. If additional or different forms are needed, call us at (202) 296-2237.
- 3 For each line of pre-printed data, review degree titles, ABET status, and program group (located in the second and third columns from the left). Correct any errors. Cross out titles which no longer apply. Enter new titles on blank lines. ABET status reflects accreditations in effect for the 1992-93 academic year; changes that are not effective until the 1993-94 academic year do NOT apply. See codes and abbreviations below.
- 4 For each program you report, enter the **TOTAL** number of degrees awarded between July 1, 1992 and June 30, 1993, in the fourth column from the left.
- 5 In the next column, enter the number of these degrees that were awarded to **WOMEN** (this figure should include all women, regardless of race, ethnicity, or citizenship).
- 6 Skip to the last column on the right and enter the number of degrees awarded to **FOREIGN NATIONALS**—people in the U.S. on student (F-1) or exchange (J-1) visas.
- 7 Finally, enter the numbers of degrees awarded to **ETHNIC MINORITIES** who are also citizens or permanent residents of the U.S. (including foreign-born students on immigrant visas). Do NOT include any foreign national as an American ethnic minority. NO ONE should be counted in more than one ethnic minority group. These figures should include degrees awarded to both men and women of ethnic minority groups. We are interested in four separate groups of peoples: African Americans/Blacks; Hispanic Americans/Latinos; Asian Americans, including Americans of Pacific, South Asian, and Middle Eastern origin; and Native Americans/American Indians, including Eskimos and Aleuts.
- 8 Enter **SUBTOTALS** for men and women in each column across the bottom of the chart. Remember to enter data across the page for ethnic minorities and foreign nationals by sex.
- 9 Enter the **GRAND TOTALS** for all degree recipients, women, ethnic minorities and foreign nationals at the very bottom of the grid. Remember that the men and women subtotals should sum to the grand total figures; if they do not, double check figures and make appropriate corrections. The program title data at the top of the grid also should sum to the grand totals; if they do not, double check the figures and make appropriate corrections.
- 10 If there were no awards for a program in ANY of these categories, enter zeroes. **BLANK ITEMS ARE ASSUMED TO BE UNKNOWN, UNLESS YOU INDICATE OTHERWISE.** A correctly completed form should have NO blank items. Items for which firm data is not available should be estimated by the deans or their appointed representatives.
- 11 Review the information on the Dean of Engineering or equivalent person. Make any corrections or additions necessary. The information only needs to be completed or corrected on one form.
- 12 Review all entries. Double check your math.

The data on women, minorities, and foreign nationals are vital. We find that virtually all institutions do possess these statistics, although often they are maintained in such places as offices of minority affairs, institutional research, etc.

If you have ANY problems, call Claire LeBuffe or Dick Ellis for help at (202) 296-2237. We must have your completed response by August 16, 1993. A business reply envelope is provided for your convenience.

We are obtaining nearly 100 percent cooperation from all U.S. engineering institutions and all technology schools with ABET-approved programs; we seek participation from other schools with engineering technology programs, as well. The data you provide is the authoritative source on the production of engineers in the United States, and is used by agencies of government, corporations, journalists, and researchers. Thanks for your help.

CODES AND ABBREVIATIONS

ABET STATUS: a program-level accreditation code. "A" denotes ABET accreditation for associate-level offerings; "B" for bachelor-level programs; "M" (rarely used), for masters-level programs. "N" stands for programs not approved by ABET. Codes reflect statuses for the 1992-93 academic year. Graduate programs may be tagged with these codes if a school happens to have an ABET-approved program at the undergraduate level with an identical title.

Engineering Program Group Codes:

AER (Aerospace)	IEV (Engineering Management)
AGR (Agricultural)	IMF (Manufacturing)
ARC (Architectural)	IND (Industrial)
BIO (Biomedical)	MAR (Marine & Naval Architecture)
CER (Ceramic)	MTL (Metals & Metallurgy)
CHE (Chemical)	MEC (Mechanical)
CVL (Civil & Construction)	MGN (Mining, Mineral, Geosciences)
CMP (Computer)	NUC (Nuclear)
ELC (Electrical & Electronic)	PET (Petroleum & Natural Gas)
ENS (Engineering Science)	SYS (Systems)
ENV (Environmental)	OTH (Others)
GNL (General Engineering)	

Engineering Technology Program Group Codes:

ACN (Air Conditioning/Heating/Refrigeration)	as EWC does NOT cover Pre-Engineering or equivalent curricula)
AER (Aeronautical)	GNL (General Engineering Technology)
ARC (Architectural)	IMF (Manufacturing)
AUT (Automotive)	IND (Industrial)
CHE (Chemical)	MAR (Marine)
CVL (Civil, Highway, Surveying)	MTL (Metals)
CMP (Computer)	MEC (Mechanical)
CON (Construction)	MGN (Mining, Metallurgical, Welding)
DRP (Drafting & Design)	NUC (Nuclear)
ELC (Electrical)	OTH (Others, including Agricultural, Bio-medical, Environmental, and Petroleum Technology programs).
ELM (Electromechanical)	
ELX (Electronic)	
ENS (Engineering Science—used only for programs like Optical Technology,	

ATTN: BURTON LEVRENSON

CURRENT ENGINEERING WORKFORCE COMMISSION PUBLICATIONS

Custom runs of degree, enrollment or salary data are possible; call us for details. Our machine-readable products are provided on IBM-standard 5 1/4" or 3 1/2" floppy disks and include most, but not all, of the details available in EWC's printed reports; in the case of the enrollment disks, data is also provided that is not included in the printed materials. For more information, contact the AAES Research Department.

ENGINEERS' SALARIES: SPECIAL INDUSTRY REPORT 1993 (published July 1993)

A detailed breakdown of engineering salaries according to type of industry, geographic regions, company size, employee experience, highest degree held, and supervisory status. Tables and graphs depict salaries in medians, quartiles, deciles and means.

member price: \$169.00 non-member price: \$287.50

PROFESSIONAL INCOME OF ENGINEERS 1993 (published July 1993)

An abridged version of the Special Industry Report. Details for salary differences by highest degree held are not included; tabulations are added on engineering compensation in local, state and federal government agencies.

member price: \$70.00 non-member price: \$115.00

SALARIES OF ENGINEERS IN EDUCATION 1992 (published July 1992)

Median, quartile, decile and mean salaries across 18 experience brackets for engineering faculty, by academic rank, contract types, and type of institution.

member price: \$70.00 non-member price: \$112.00

ENGINEERING AND TECHNOLOGY ENROLLMENTS, FALL 1992 (published April 1993)

An overview of the enrollment of students in engineering and engineering technology programs throughout the nation. Details by fields of study for specific schools and states, with added tabulations for women, minorities, and foreign nationals.

member price: \$120.00 non-member price: \$195.00

Machine-readable data files for Lotus 1-2-3:

member price: \$595.00 non-member price: \$795.00

ENGINEERING AND TECHNOLOGY DEGREES 1993 (published December 1993)

A comprehensive report on recent engineering and engineering technology degrees that provides general statistics for schools and states on degrees in 40 engineering and technology disciplines, data for awards to women, minorities, and foreign nationals, and detailed data for specific curricula.

member price: \$140.00 non-member price: \$230.00

Machine-readable data files for Lotus 1-2-3:

member price: \$595.00 non-member price: \$795.00

ENGINEERING WORKFORCE BULLETINS (eight issues throughout the calendar year)

Concise, timely information on trends in engineering salaries, enrollments, degrees, women and minorities in engineering, other topics.

Full subscription year:

member price: \$69.00 non-member price: \$112.00

Single copies:

member price: \$9.00 non-member price: \$14.00

AUDIO CASSETTE TAPES OF EWC'S 1991 CONFERENCE ON "ENGINEERS IN AMERICA'S FUTURE: SHORTAGE OR SURPLUS?" (held September 11-12, 1991)

Full Set: \$94.50 Individual Sessions: \$15.00

NOTE: Back issues of the *Engineering Workforce Bulletin* and most of EWC's printed reports are available.

TO ORDER:

Member prices are available to members of AAES member societies, employees of Industry Affiliates, and educational institutions or firms that have participated in the study to be purchased. Special prices are available to employees of EWC Sustaining Associates and their subsidiaries, and employees of EWC Academic Associates. Please include society affiliation and membership number, Industry Affiliate, EWC Sustaining Associate, EWC Academic Associate, or survey participant information with your order, if applicable. First class postage (U.S. domestic) is included in the purchase price. Foreign orders add 10%; check must be payable in U.S. funds. Visa and MasterCard charges are also accepted (include account number, expiration date and signature). Orders charged to Visa and MasterCard accounts may be placed directly by phone (U.S. only) at 1-800-658-8897. Mail orders should be directed to the AAES Publications Department, Suite 608, 1111 19th St. N.W., Washington, D.C. 20036-3690.
